Welcome to SonarQube Dashboard

Since you are able to read this, it means that you have successfully started your SonarQube server. Well done!

If you have not removed this text, it also means that you have not yet played much with SonarQube. So here are a few pointers for your next step:

» Do you now want to run analysis on a project?

» Maybe start customizing dashboards?

» Or simply browse the complete documentation?

» If you have a question or an issue, please visit the Get Support page.

ODK Aggregate Project analyzed with the SonarQube Runner /

SonarQube™ technology is powered by SonarSource SA
Version 4.1.1 - Community - Documentation - Get Support - Plugins

Embedded database should be used for evaluation purpose only

The embedded database will not scale, it will not support upgrading to newer versions of SonarQube, and there is no support for migrating your data out of it into a different database engine.

MyTest Project analyzed with the SonarQube Runner
